

**Essential to a healthy learning environment.**

Phenomenal Aire™ Cold Plasma Generator technology is designed for installation and use within a building's Heating Ventilation and Air Conditioning (HVAC) systems. Phenomenal Aire™ produces an electric field filled with highly charged ions. The ions act as a natural scrubbing agent for the air passing through the field. Through the scrubbing process (ionization), Phenomenal Aire™ cleans air safely and is verified to disable harmful microorganisms, including viruses. **Third-party testing laboratories like Analytics Lab Group (ALG) Inc have validated reduction rates of the Human Coronavirus ATCC VR-740, Strain 229E as high as 90% within 60 minutes of operation.**

Human Coronavirus	Reduced by 90.00%
Noro Virus-	Reduced by 96.24%
STAPH/MRSA-	Reduced by 99.68%
E. Coli-	Reduced by 69.01%
TB-	Reduced by 86.87%
C. diff-	Reduced by 99.71%
Legionella-	Reduced by 93.50%

## Safe & Effective

Phenomenal Aire™ technology is safe. There are NO health concerns to consider. Unlike some other air cleaning technologies on the market, Phenomenal Aire™ produces NO harmful byproducts like Ozone or Reactive Oxidative Species.

The Phenomenal Aire™ Series C product line is ETL listed and verified to not produce ozone under UL standard 867. Underwriters Laboratories (UL) is a Nationally Recognized Testing Laboratory (NRTL) recognized by the Occupational Safety and Health Administration (OSHA). Products that are ETL Listed have been tested at an ETL laboratory and found to meet all applicable Standards for Safety published by relevant NRTLs.

## Education

It is well documented that indoor air quality has a direct impact on academic performance. Clean, healthy air can increase mental productivity and help yield higher test scores. Buildings with poor indoor air quality are documented to produce negative Acute, Chronic, or Discomfort (ACD) health effects leading to missed school days and lower test scores. Poor indoor air quality can cause medical issues, some of which can be severe. Phenomenal Aire™ creates clean, healthy indoor air. Phenomenal Aire™'s cleaning process is effective and has been verified to disable pathogens and eliminate harmful microorganisms safely. Phenomenal Aire™ removes odors and volatile organic compounds (VOCs) from the air. Phenomenal Aire™ also removes microscopic particulate matter (PM) from the air. Phenomenal Aire™'s cleaning process also improves the health of an institution's financial performance. Increased attendance can yield higher revenues and avoid added costs associated with temporary staffing. Phenomenal Aire™'s cleaning process creates greater HVAC efficiencies. Efficient HVAC operations result in a reduction of annual energy consumption and the reduction of greenhouse gas emissions.

## Install Phenomenal Aire™ Today!

- Improves Indoor Air Quality
- Cleans Air Safely-No Harmful Byproducts
- Increases the Capture of Airborne Particulates
- Demonstrates Commitment to Health & Wellness
- Reduces Energy Consumption & Saves Money
- Demonstrates Commitment to Sustainability
- Easy & Affordable Installation
- Requires No Replacement Parts
- Lowest Cost of Operations over Product Life-cycle
