On Link WIRED/WIFI Hardware Gateways

IR Infrared

WIRED

WIRED-IR3
- Wired network connection
- Up to eight (8) simultaneous connections
- Three independent IR outputs or sensor inputs
- Three IR emitters & one IR blaster included
- Built in IR learner
- US power adapter

WIFI

WIFI-IR3
- Wireless network connection
- Up to eight (8) simultaneous connections
- Three independent IR outputs or sensor inputs
- Three IR emitters, & one IR blaster included
- Built in IR learner
- US power adapter

RS-232 Serial

WIRED-232
- Wired network connection
- Up to four (4) simultaneous connections
- One RS232 serial port
- US power adapter

WIFI-232
- Wireless network connection
- Up to four (4) simultaneous connections
- One RS232 serial port
- US power adapter

Contact Closure

WIRED-CONTACT
- Wired network connection
- Up to four (4) simultaneous connections
- Three (3) contact closure relays – 24V AC/DC @ .5A N.O. contact
- US power adapter

WIFI-CONTACT
- Wireless network connection
- Up to four (4) simultaneous connections
- Three (3) contact closure relays – 24V AC/DC @ .5A N.O. contact
- US power adapter
